PROGRAM

TIME	ROOM A	ROOM B	ROOM C	TRAINING VILLAGE
------	--------	--------	--------	------------------

SATURDAY, DECEMBER 6, 2025

	A1: Imaging & Physiology - guided PCI (Part 1)	B1: Valvular Heart Diseases	C1: DCB Intervention (Part 1)	
08:30 - 09:30	Chairpersons: Ho Thuong Dung, Shozo Ishihara Panelists: Ngo Minh Hung, Liew Houng Bang, Rajnikanth Rajagopal, Jung Min Ahn	Chairpersons: Pham Nguyen Vinh, Nguyen Lan Hieu	Chairpersons: Kwan Lee, Huynh Van Thuong Panelists: Hendrik Feller, Tran Tra Giang, Truong Phi Hung, Glendon Lau Seng Kiong	
08:30 - 08:42	Multivessel PCI: Is Physiology Needed or is Angiography Enough? <i>Tan Huay Cheem</i>	Aortic Stenosis: how to assess the severity <i>Phan Thao Nguyen</i>	DCB for the heavy calcified artery: Mission Possible <i>Nguyen Ngoc Vinh</i>	
08:42 - 08:54	Stent optimization after class 1A indication of imaging-guided PCI in 2024 ESC guideline <i>Myeong Ki Hong</i>	Unusual structural cardiac interventions: how to implement tools and knowledge from our coronary backbone <i>Eric Eeckhout</i>	Recoil and dissection in DCB angioplasty: when to accept and when to stent? <i>Lim Ing Haan</i>	
08:54 - 09:06	How Intravascular Imaging guided our case: what is the best strategy for a double ostium ISR? <i>Chau Do Truong Son</i>	Comprehensive Review of Management Strategies for Bicuspid Aortic Valve <i>Nguyen Trung Quoc</i>	Left main intervention with Drug Coated Balloon: when and why? <i>Do Van Chien</i>	
09:06 - 09:18	Interesting imaging-guided PCI cases sharing <i>Henry Chui Ka Lung</i>	Overview of Percutaneous Intervention for Valvular Heart Diseases <i>Pham Manh Hung</i>	Approaching coronary bifurcation lesions using drug coated balloon <i>Al Fazir Omar</i>	
09:18 - 09:30	Discussion	Discussion	Discussion	

Opening Ceremony	
09:30 - 10:00	Ho Thuong Dung, Do Quang Huan, Ngo Minh Hung, Dinh Duc Huy, Nguyen Do Anh, Tran Viet An, Kwan Lee, Eric Eeckhout
09:30 - 09:33	Introduction <i>Dinh Duc Huy</i>
09:33 - 09:38	Opening speech from Interventional Cardiology Club <i>Ngo Minh Hung</i>
09:38 - 09:43	Opening speech from Advisory Board <i>Eric Eeckhout</i>
09:43 - 09:55	Key-note-lecture: Artificial Intelligence in Interventional Cardiology <i>Kwan Lee</i>
09:55 - 10:00	Faculty group photos

	A2: Left main intervention	B2: Lipid-lowering therapy	C2: Complications during Percutaneous Intervention (Part 1)	T1: Bifurcation Stenting Strategy- Terumo
10:00 - 11:00	Chairpersons: Do Quang Huan, Tan Huay Cheem Panelists: Doni Firman, Phan Thao Nguyen, Myeong Ki Hong, Nguyen Van Tan	Chairpersons: Pham Manh Hung, Ho Thuong Dung	Chairpersons: Eric Eeckhout, Nguyen Trung Quoc Panelists: Ramesh Singh, Do Van Chien, Lim Ing Haan, Dafsah A. Jazar	Chairpersons: Nguyen Do Anh, Dang Duy Phuong
10:00 - 10:12	How to decide and optimize LM bifurcation stenting <i>Jung Min Ahn</i>	Reframing the Paradigm of Lipid Management in ASCVD patients: "Earlier, Lower, Longer, and Younger": Unpack the available Evidence <i>Nguyen Ngoc Quang</i>	Acute stent thrombosis with sub-intimal wiring: how would I treat <i>Alan KC Chan</i>	Strategy for Bifurcation PCI: Provisional or 2-Stent Technique <i>Nguyen Do Anh</i>
10:12 - 10:24	Acute angle between severe stenosis (LM and LAD) in the context of trifurcation: failed twice, what next? <i>Ngo Minh Hung</i>	Statin Intolerance <i>Dinh Duc Huy</i>	A "stretched" situation <i>Chau Do Truong Son</i>	Provisional Technique (hands-on with model) <i>Dang Duy Phuong</i>
10:24 - 10:36	Rotablatng left main: considerations, tips and tricks <i>Yeo Khung Keong</i>	Secondary Prevention for ASCVD events: never too early, always too late <i>Ho Thuong Dung</i>	Managing Guidewire and Device Entrapment in PCI: Case-Based Insights and Management Strategies <i>Kajiya Takashi</i>	DK-Crush Technique (hands-on with model) <i>Nguyen Do Anh</i>
10:36 - 10:48	IVUS in Left Main PCI: Tips and Tricks <i>Liew Houng Bang</i>	Overcoming Barriers to Managing Familial Hypercholesterolemia <i>Nguyen Lan Hieu</i>	Catastrophic Failure of Stent Balloon Deflation: A Rare PCI Complication <i>Phan Anh Khoa</i>	DK-Culotte Technique (hands-on with model) <i>Dang Duy Phuong</i>
10:48 - 11:00	Discussion	Discussion	Discussion	Discussion

PROGRAM

TIME	ROOM A	ROOM B	ROOM C	TRAINING VILLAGE
SATURDAY, DECEMBER 6, 2025				
11:00 - 12:00	A3: Live-in-a-box Case: long diffused disease PCI (Vietnam Heart Institute-Bach Mai Hospital)	B3: Atrial Fibrillation & Arrhythmia	C3: Best from the Masters	
	Chairpersons: Rosli M Ali, Dinh Duc Huy Panelists: Yeo Khung Keong, Hoang Van, Al Fazir Omar, Frankie CC Tam	Chairpersons: Nguyen Ngoc Quang, Truong Phi Hung	Chairpersons: Pham Manh Hung, Myeong Ki Hong Panelists: Huynh Van Thuong, Alexander Loch, Rajinikanth Rajagopal, Binay Kumar Rauniyar	
11:00 - 11:12	Long, diffused coronary lesions: is there an optimal approach? <i>Rosli M Ali</i>	Valvular heart disease and atrial fibrillation: advances in mechanisms, risk stratification, and therapeutic approaches <i>Do Van Bui Dan</i>	How to Use AI-QCA in the Cath Lab: Case-based Lecture <i>Yongcheol Kim</i>	
11:12 - 11:24	Case demonstration <i>Nguyen Quoc Thai and VINHI Bach Mai Hospital Team</i>	Cardiac arrhythmias in the emergency settings of ACS and revascularization <i>Pham Truong Son</i>	A Complex TAVI Case: When the Anatomy Surprises You! <i>Phan Thao Nguyen</i>	
11:24 - 11:36		EKGs in the emergency room: do not miss that myocardial infarction <i>Nguyen Huu Duc</i>	Let's go fishing <i>Michael Nguyen</i>	
11:36 - 11:48		STEMI-mimics EKGs <i>Nguyen Duc Chinh</i>	Interesting Case sharing <i>Nguyen Lan Hieu</i>	
11:48 - 12:00	Discussion	Discussion	Discussion	
12:00 - 13:00	A4: Lunch Symposium (Acrostak/ Trạng Tin)- Live-in-a-box Case	B4: Lunch Symposium (Astra Zeneca)	C4: Lunch Symposium (Viatrix)	T2 - Kaneka
	Chairpersons: Nguyen Van Tan, Le Cao Phuong Duy Panelists: Chau Do Truong Son, Tran Tra Giang, Le Duy Lac, Phan Anh Khoa	Chairpersons: Ho Thuong Dung	Chairpersons: Pham Nguyen Vinh Panelists:	Chairpersons: Ho Anh Binh, Nguyen Do Anh Panelists:
12:00 - 12:12	ISR PCI: current approach <i>Nguyen Van Tan</i>	Tối ưu hóa quản lý bệnh nhân đối tháo đường kèm bệnh mạch vành với góc nhìn từ các khuyến cáo mới: Từ phòng ngừa sớm đến điều trị toàn diện <i>Tran Hoa</i>	Quản lý đa yếu tố nguy cơ tim mạch trên thực hành lâm sàng <i>Dinh Duc Huy</i>	Advancing Restenosis Treatment: The Role of Ultra-Small Diameter Balloons in In-Stent Lesions <i>Kajiya Takashi</i>
12:12 - 12:24	Case demonstration <i>Nguyen Van Tan and Thong Nhat Hospital Team</i>	Nhìn lại những điểm mới trong tối ưu hóa điều trị suy tim từ ESC, ACC 2025 <i>Nguyen Hoang Tai My</i>	Mở rộng vai trò statin trong dự phòng tiên phát bệnh tim mạch do xơ vữa <i>Do Van Bui Dan</i>	Breaking Through the Narrowest Lesions: Expanding Access with a 0.75 mm Diameter Balloon <i>Doan Huu Huy</i>
12:24 - 12:36		Thảo luận <i>Ho Thuong Dung</i>	Thảo luận <i>Pham Nguyen Vinh</i>	An Advanced Strategy for Treatment of Bifurcation Lesions: Dual-Lumen Microcatheters Combined with Ultra-Small Balloons <i>Tran Ngoc Tuan</i>
12:36 - 13:00				Discussion
13:00 - 14:00	A5: DCB Intervention (Part 2)	B5: Anti-thrombotic therapy	C5: Complications during Percutaneous Intervention (Part 2)	
	Chairpersons: Liew Houng Bang, Ho Anh Binh Panelists: Lim Ing Haan, Dinh Duc Huy, Rustem Dautov, Henry Chui Ka Lung	Chairpersons: Pham Nguyen Vinh, Hoang Phuong	Chairpersons: Nguyen Ngoc Quang, Lam Ho Panelists: Nguyen Do Anh, Doni Firman, Dinesh Nair, Nguyen Duc Chinh	
13:00 - 13:12	Device selection in HFREF patient with diffused coronary artery disease: DES or DCB? <i>Dang Duy Phuong</i>	Optimizing anti-coagulation therapy before Percutaneous Coronary Intervention <i>Do Quang Huan</i>	A Cocktail of Complications <i>Ramesh Singh</i>	
13:12 - 13:24	DCB in STEMI: does it offer any advantages over DES? <i>Sandeep Basavarajiah</i>	The East Asian Paradox and its Implications for Personalized Antiplatelet Therapy <i>Tran Hoa</i>	Bifurcation in-stent restenosis Nightmare <i>Nguyen Huu Duc</i>	
13:24 - 13:36	Refining Coronary Bifurcation PCI with Drug-Coated Balloons: Simplicity Meets Innovation <i>Ho Anh Binh</i>	Anticoagulation in AF with High Bleeding Risk: Striking the Balance <i>Hoang Van</i>	CTO skills for non-CTO complications <i>Frankie CC Tam</i>	
13:36 - 13:48	DCB angioplasty: what next? <i>Rajinikanth Rajagopal</i>	Anticoagulation in Venous Thromboembolism: What's New from ESC 2025 <i>Le Cao Phuong Duy</i>	When the final shot is the beginning <i>Mai Xuan Anh</i>	
13:48 - 14:00	Discussion	Discussion	Discussion

PROGRAM

TIME	ROOM A	ROOM B	ROOM C	TRAINING VILLAGE
SATURDAY, DECEMBER 6, 2025				
14:00 - 15:00	A6: CTO intervention (Part 1) Chairpersons: Ngo Minh Hung, Michael Nguyen Panelists: Hoang Van, Alan KC Chan, Takuma Tsuda, Binay Kumar Rouniigar	B6: Chronic Coronary Syndromes Chairpersons: Nguyen Quang Tuan, Huynh Van Thuong Panelists:	C6: Live-in-a-box Case: Heavy calcified lesion PCI (NDGD Hospital) Chairpersons: Rosli M Ali, Ho Anh Binh Panelists: Bharat Khialani, Dinh Duc Huy, Hendrik Feller, Alexander Loch	T3- TBA
	14:00 - 14:12 Evidence base CTO PCI: how do I select my patients and prepare for my procedure? <i>Al Fazir Omar</i>	The Appropriate Use of PCI in Contemporary Management of Chronic Coronary Syndromes <i>Nguyen Quang Tuan</i>	Cracking Calcium with Precision: Imaging-Guided Optimization in PCI <i>Kajiya Takashi</i>	
	14:12 - 14:24 Tips and techniques of retrograde CTO <i>Shozo Ishihara</i>	Updates of coronary artery diseases management : anti platelet therapy in patients with chronic kidney disease or diabetes mellitus <i>Pham Nguyen Vinh</i>	Case demonstration <i>Nguyen Do Anh and NDGD Hospital Team</i>	
	14:24 - 14:36 From Impossible to Open Flow: Strategy to success in a Complex CTO case <i>Pham Nhat Minh</i>	Atrial Fibrillation and Chronic Coronary Ischemia: how to overcome this challenging vicious circle? <i>Pham Truong Son</i>		
	14:36 - 14:48 Post-CABG CTO PCI <i>Rustem Dautov</i>	New strategies to treat atherosclerotic cardiovascular disease: beyond the blood sugar effect of GLP-1 RAs <i>Truong Phi Hung</i>		
	14:48 - 15:00 Discussion	Discussion	Discussion	
15:00 - 16:00	A7: Bifurcation PCI (Part 1) Chairpersons: Doni Firman, Nguyen Van Tan Panelists: Dinesh Nair, Hoang Phuong, Bharat Khialani, Yongcheol Kim, Glendon Lau Seng Kiong	B7: Acute Coronary Syndromes Chairpersons: Nguyen Do Anh, Tran Viet An	C7: Worst from the Masters Chairpersons: Kwon Lee, Do Quang Huan Panelists: Dinh Duc Huy, Jung Min Ahn, Kajiya Takashi, Nguyen Quang Tuan	T4- TBA
	15:00 - 15:12 All the 'crush' you need to know <i>Frankie CC Tam</i>	Selecting the optimal anti-platelet regimen for patients with ACS undergoing complex PCI <i>Dang Duy Phuong</i>	My worst life time case <i>Eric Eeckhout</i>	
	15:12 - 15:24 3D-OCT-confirmed distal-cell Recrossing in coronary bifurcation PCI: why it matters? <i>Nguyen Van Tan</i>	Anti-platelet therapy in ACS: less is more <i>Huynh Quoc Hieu</i>	Facing a Three-Vessel Nightmare: Lessons from My Worst Day in the Lab <i>Hendrik Feller</i>	
	15:24 - 15:36 Bifurcation In-Stent Restenosis <i>Dafsa A Jazar</i>	Control of LDL-C level in patients with acute coronary syndrome: challenges and opportunities <i>Tran Viet An</i>	Iatrogenic Subclavian Artery Injury During Coronary Catheterization in the Presence of an Aberrant Right Subclavian Artery (Lusoria)- How to overcome? <i>Nguyen Trung Quoc</i>	
	15:36 - 15:48 More Metal, More Risk: Finding the Sweet Spot in Antithrombotic Therapy After Bifurcation PCI <i>Tran Hoa</i>	What is new in the 2025 VNHA guidelines for ACS? <i>Ho Anh Binh</i>	Nightmares in Leric syndrome <i>Wei Chun Huang</i>	
	15:48 - 16:00 Discussion	Discussion	Discussion	
18:00 - 21:00 FACULTY DINNER				
SUNDAY, DECEMBER 7, 2025				
08:30 - 09:30	A8: TAVI (Part 1) Chairpersons: Kwon Lee, Truong Quang Binh Panelists: Michael Nguyen, Dinh Huynh Linh, Vu Hoang Vu, Nguyen Hoang Tai My	B8: Heart Failure Chairpersons: Pham Nguyen Vinh, Pham Truong Son	C8: Complex and Unusual PCI Chairpersons: Tan Huay Cheem, Ngo Minh Hung Panelists: Wirash Kehasukcharoen, Nguyen Trung Quoc, Chau Do Truong Son, Alan KC Chan	T5: Best Case Competition (Part 1) Chairpersons: Nguyen Quoc Thai, Glendon Lau Seng Kiong
	08:30 - 08:42 Valve-in-Valve TAVI: Future Trends & Directions <i>Pham Manh Hung</i>	Updates for treatment of Post-MI Heart Failure: what is new in 2025? <i>Tran Viet An</i>	Complex Cases, Clear Insights: A Fellow's Experience in CHIP PCI at Tuen Mun Hospital <i>Christina Mew</i>	Case 1: Coronary artery rupture: nightmare in PCI <i>Dam Hai Son</i>
	08:42 - 08:54 Coronary Artery Disease and TAVI: Challenges and strategies in the Contemporary Era <i>Dinh Huynh Linh</i>	Complete revascularization for Heart Failure patients with multi-vessel disease: why, when and how? <i>Do Quang Huan</i>	A very High-Risk NSTEMI with Anomalous Origin of the RCA <i>Nguyen Duc Chinh</i>	Case 2: Unfractionated Heparin Therapy in the Management of Acute In-Stent Thrombosis During Left Main Coronary Intervention <i>Le The Anh</i>
	08:54 - 09:06 TAVI Heart Team: UMC experiences from the first 100 cases <i>Nguyen Hoang Dinh</i>	Reverse cardiac remodeling after myocardial infarction: The role of foundational medical therapies <i>Do Van Chien</i>	Difficult LM Engagement and Burr Entrapment: A Case of Rota-Assisted Re-Engagement <i>Szu Chi Chen</i>	Case 3: Spontaneous coronary artery dissection in a young male patient successfully treated with stenting <i>Le Quoc Anh</i>
	09:06 - 09:18 TAVI Complications <i>Rosli M Ali</i>	LOT-CRT: Optimizing Resynchronization in CRT-Eligible Patients <i>Pham Tran Linh</i>	No Flow Nightmare: Saved by Parallel Path <i>Bharat Khialani</i>	Case 4: NSTEMI in a patient with Subdural Hematoma <i>Mai Hoang Dil</i>
	09:18 - 09:30 Discussion	Discussion	Discussion

PROGRAM

TIME	ROOM A	ROOM B	ROOM C	TRAINING VILLAGE
SUNDAY, DECEMBER 7, 2025				
09:30 - 10:30	A9: TAVI (Part 2) Chairpersons: Eric Eeckhout, Nguyen Hoang Dinh Panelists: Pham Manh Hung, Rostli M Ali, Nguyen Trung Quoc, Phan Thao Nguyen	B9: Resistant Hypertension Chairpersons: Trương Quang Bình, Nguyễn Quang Tuấn	C9: Bifurcation PCI (Part 2) Chairpersons: Tân Huay Cheem, Nguyễn Quốc Thái Panelists: Yongcheol Kim, Al Fazir Omar, Phan Tuan Dat, Michael Nguyen	T6: Best Case Competition (Part 2) Chairpersons: Ngô Minh Hưng, Alan KC Chan
	09:30 - 09:42 Simplifying the TAVI protocol: how far can we go? <i>Nguyễn Ngọc Quang</i>	Uncontrolled and Resistant Hypertension: Clinical Risks and Approaches <i>Trần Hoa</i>	Optimizing Culotte stenting: a step-by step approach <i>Doni Firman</i>	Case 5: Integration of Imaging and Atherectomy: A Multimodality Approach for Complex Calcified Lesions in Contemporary PCI Practice <i>Phạm Nhật Minh</i>
	09:42 - 09:54 Lifetime management for TAVI <i>Kwan Lee</i>	Management of Resistant Hypertension: Insights from the Most Recent Guidelines <i>Trương Quang Bình</i>	Left main occlusion in the acute setting: what really matters? <i>Huỳnh Huu Nam</i>	Case 6: Calcified uncrossable lesion <i>Chun Yu Fung</i>
	09:54 - 10:06 TAVI in Small Annulus: All you need to know <i>Vũ Hoàng Vũ</i>	Blood Pressure Management in Stroke <i>Nguyễn Huy Thương</i>	Tips and tricks for complex bifurcation PCI with cases demonstrations <i>Wirash Kehasukcharoen</i>	Case 7: Triple-complication disaster in Percutaneous Coronary Intervention for calcified coronary lesion <i>Le Duy Lạc</i>
	10:06 - 10:18 Emerging options for severe aortic regurgitation <i>Nguyễn Hoàng Đình</i>	Renal Denervation: Recent Advances and Real-World Experiences in Vietnam <i>Trần Bá Hiếu</i>	POT and Re-POT for bifurcation lesion: Simpler for Better <i>Hà Văn Phước</i>	Case 8: Triple vessel disease is severe ischemic cardiomyopathy <i>Karen Pui Shan Shek</i>
10:18 - 10:30	Discussion	Discussion	Discussion	
10:30 - 11:30	A10: Industry Symposium (Novartis) Chairpersons: Trương Quang Bình, Phạm Mạnh Hưng	B10: Industry Symposium (Boehringer Ingelheim) Chairpersons: Nguyễn Hoàng Đình	C10: Imaging & Physiology- guided PCI (Part 2) Chairpersons: Yeo Khung Keong, Myeong Ki Hong Panelists: Hoàng Văn, Ramesh Singh, Phan Tuan Dat, Takuma Tsuda	T7: Best Case Competition (Part 3) Chairpersons: Đinh Đức Huy, Wirash Kehasukcharoen
	10:30 - 10:42 Chiến lược phối hợp sớm: Nền tảng then chốt đạt mục tiêu LDL-C <1.4 mmol/L ở bệnh nhân sau HCMVC <i>Trần Quang Khánh</i>	Phối hợp tích cực trong điều trị suy tim: Chìa khóa cải thiện tiên lượng và chất lượng sống <i>Phạm Đức Đạt</i>	Intravascular imaging and physiologic investigations in MINOCA, ANOCA and INOCA <i>Hà Thuong Dung</i>	Case 9: Drug Coated Balloon (DCB) Enhanced Modified Jailed Balloon Technique <i>Le Văn Tuyến</i>
	10:42 - 10:54		uFR: hype or real <i>Lam Ho</i>	Case 10: STEMI with Complete AV block and Heavily Calcified lesion <i>Đoan Nhật Thanh</i>
	10:54 - 11:06 Ứng dụng liệu pháp siRNA trong thực hành lâm sàng: Bước tiến mới trong kiểm soát LDL-C hiệu quả & bền vững <i>Nguyễn Ngọc Quang</i>	Tiếp cận hiện nay trong phòng ngừa biến chứng tim mạch ở bệnh nhân nguy cơ cao: Thách thức & Cơ hội <i>Trần Hoa</i>	Intravascular Imaging: The Key to Unlocking PCI in Calcified Coronary Lesions <i>Nguyễn Do Anh</i>	Case 11: Left Main Bifurcation PCI with Mini Crush technique <i>Lý Đức Ngọc</i>
	11:06 - 11:18		PCI horizon-scan: incremental value of imaging vulnerability <i>Liew Houng Bang</i>	Case 12: Deferring Stent, Winning the Vessel: DCB-Only Strategy in LAD CTO <i>Trần Quốc Bảo</i>
11:18 - 11:30	Thảo luận <i>Trương Quang Bình</i>	Thảo luận <i>Nguyễn Hoàng Đình</i>	Discussion	
11:30 - 12:30	A11: CTO intervention (Part 2) Chairpersons: Phạm Mạnh Hưng, Sandeep Bavarasajiah Panelists: Rustem Dautov, Nguyễn Hữu Đức, Trần Bá Hiếu, Dinesh Nair	B11: Cardiogenic Shock Chairpersons: Kwan Lee, Đỗ Văn Chiên	C11: Complex & CHIP PCI Chairpersons: Liew Houng Bang, Đinh Đức Huy Panelists: Ramesh Singh, Trần Việt An, Frankie CC Tam, Phạm Nhật Minh	T8: Best Case Competition (Part 4) Chairpersons: Lê Cao Phương Duy, Henry Chui Ka Lung
	11:30 - 11:42 Antegrade approach for CTO PCI: wire selection and ivus-guided wiring <i>Takuma Tsuda</i>	Insights on Impella and ECMO for cardiogenic shock: Evidence from DANGER SHOCK and ECLS SHOCK <i>Kwan Lee</i>	Hybrid DES plus DCB in Complex PCI <i>Nguyễn Quốc Thái</i>	Case 13: Coronary Artery Aneurysm: From Pathophysiology to Clinical Challenges <i>Nguyễn Thế Huy</i>
	11:42 - 11:54 Left main CTO after CABG: how to decide? <i>Ngô Minh Hưng</i>	OHCA: current approach <i>Trương Phi Hưng</i>	Calcified In-Stent-Restenosis PCI: how to overcome challenges? <i>Lam Ho</i>	Case 14: Giant RCA Aneurysm <i>Cheung Chun Lin Raymond</i>
	11:54 - 12:06 Psychology of CTO/CHIP operator and cathlab team <i>Rustem Dautov</i>	Application of ECMO in cardiogenic shock: a case-based lecture <i>Đỗ Văn Chiên</i>	Complex PCI in de novo-lesion with DCB: experiences from Hanoi Heart Hospital with case demonstration <i>Trần Trà Giang</i>	Case 15: Hybrid PCI Strategy in High Bleeding Risk Patient <i>Nguyễn Mạnh Cường</i>
	12:06 - 12:18 DCB in CTO PCI: What we have learnt from cases? <i>Hoàng Văn</i>	Transcatheter Edge-to-Edge Mitral Valve Repair in Patients With Severe Mitral Regurgitation and Cardiogenic Shock <i>Phan Tuấn Đạt</i>	Intra-Aortic Balloon Pump During Primary PCI With High Thrombus Burden and Cardiogenic Shock <i>Shozo Ishihara</i>	Case 16- From Cutting to Coating: A Hybrid PCI Approach Combining DCB and DES <i>Nguyễn Việt Lâm</i>
12:18 - 12:30	Discussion	Discussion	Discussion	
12:30 - 13:00	Closing Ceremony
